ELECTRIC RATE

SCHEDULE R-TOU2

Time-of-Use Rate for Residential (PILOT)

Availability:

This schedule is available on a limited and voluntary basis for residential members. This schedule is not available to consumers with a prepaid metering contract. Determination of availability is at the discretion of the Cooperative and the Cooperative reserves the right to request additional information if clarification is necessary for such determination.

Under this schedule, participating members have the opportunity to lower their electric bill by reducing their electric usage during certain critical peak hours and shifting this usage to off-peak time periods. This pilot will remain in effect for a minimum of one year.

The number of individuals participating in this time-of-use pilot will be limited by the number of individuals participating in the sub-metered electric vehicle rate pilot. The maximum number of participants for both rate pilots will be approximately 50, with the final number of participants determined by the Cooperative.
